- TypeScript - Intermediate
- JavaScript - Intermediate
- React Native - Intermediate
- React - Beginner
- SQL - Intermediate
- Virtualization - Proficient
- System Troubleshooting - Proficient

### LANGUAGES

- Turkish: Native
- English: Upper-Intermediate

### PROFILE SUMMARY

Junior Developer with a strong foundation in React Native and Java. Built real-world projects using React Native and expanded Java skills through plugin development with the Spigot API.

Curious, self-driven, and eager to grow in a collaborative team.

I am waiting for the paid military service lottery to complete my mandatory military service.

### WORK EXPERIENCE

#### Trender Software

2022 - 2024

Community & Business Manager - Remote

- Oversaw the impact of product roadmaps on the user community and internal workflow
- Gained hands-on experience in **crisis management** and **cross-functional coordination**
- Worked across business operations, helping streamline communication and task management
- Used tools like **Google Sheets** to organize plans, track KPIs, and report progress

[References available upon request](#)

#### Public Game Server(s)

2018 - 2022

Solopreneur - Remote

- Launched and managed public Minecraft servers as a solo operator
- Gained practical experience in **OOP**, **SQL**, and server-side systems
- Worked with **Linux** environments, SSH, **VMWare** virtualization, and remote desktop tools
- Developed strong **troubleshooting skills** and learned to manage virtual servers, firewalls, and performance tuning under real-world conditions

### PROJECTS

#### Routiner - Habits App

FEB 2025 - PRESENT

React Native Developer - Remote

Tech: React Native (Expo), Firebase Auth, Firestore, TypeScript

- Built a cross-platform habit-tracking app using **React Native (Expo)** and **Firebase**
- Integrated **Google and Apple Authentication** via **Firebase Auth**
- Implemented **multi-language support**, goal tracking, and a minimalist user interface
- Focused on **user-centric features** and **performance** across iOS devices

APR 2025

#### DAIEM - Educational Mobile App

React Native Developer - Remote

Tech: React Native (Expo), JSON, TypeScript

- Designed and developed a mobile app for a first-aid education center
- Implemented core features including user login, media library, contact form, course listings, and quiz system
- Focused on a clean UI, fast navigation, and intuitive UX for non-technical users
- Delivered the project end-to-end, from design to deployment

[GitHub - DAIEM](#)

#### Cublex - Game Server

APR 2025 - PRESENT

Java Developer - Remote

Tech: Java

- Developed modular Minecraft plugins using **Spigot API**
- Built GUI systems, custom items, and localization features
- Used ProtocolLib & NBTAPI to create player-specific in-game behavior such as **client-side item behavior** using NBT and ProtocolLib
- Prioritized **maintainability** and config-driven customization
